

Screwdriver magnetizer MCT series

Peculiarity

- A convenient way to magnetize with high efficiency.
- It is possible to put a whole box of products into a coil for magnetization.
- Advanced control system.
- Digital display of magnetization voltage, 50~4000V continuous and accurate adjustable.
- The intelligent module controls the charging, charging and magnetization speed poles.
- Unique structural design, suitable for assembly line.
- The coil size can be customized according to customer requirements.

Fit range

- ◆ The screwdriver magnetizer is suitable for all kinds of electric screwdriver bits, small screwdrivers, special shape screwdrivers without handles, and other tools for magnetization.

Model	MCT-LS70	MCT-LS140
Power	AC.380V 30A	AC.380V 30A
Output volt.	50~400V	50~400V
Coil size	440X440X420mm	600X600X600mm
Table size	820X500X1100(mm)	1800X660X700(mm)
Charge time	3 S	5 S
Weight	About 180KG	About 250KG
