

Screwdriver magnetizer HCT series

Peculiarity

- A convenient way to magnetize with high efficiency.
- Advanced control system
- Digital display of magnetic field strength
- The intelligent module controls the charging, charging and magnetization speed poles
- Thread the screwdriver through the coil hole and the screwdriver is magnetized.
- It adopts water-cooled design, which can work continuously for a long time;
- Intelligent temperature control protection, automatic shutdown of abnormal overtemperature,
- The coil size can be customized according to customer requirements.

Fit range

- ◆ The screwdriver magnetizer is suitable for all kinds of electric screwdriver bits, small screwdrivers, special shape screwdrivers without handles, and other tools for magnetization.

Model	HCT-100S	HCT-120S	HCT-160S
Power	AC.220V 10A	AC.220V 15A	AC.220V 20A
Magnetic field strength	0~800GS	0~700GS	0~600GS
Coil aperture	Φ 100mm	Φ 120mm	Φ 160mm
Table size	1000X600X800(mm)	1000X600X800(mm)	1000X600X800(mm)
Cooling water connection	Φ 8mm	Φ 8mm	Φ 8mm
Weight	100 KG	120 KG	150 KG
